

EXPERIENCE SHOWERS

Experience Showers are termed as such due to their lavish showering options and luxurious cabin setting. Rigo Spa offers a number of soothing and enjoyable showering facilities. We install the latest technology into our canopies in order to create a unique experience. We can house the shower in a round enclosure, a snail shaped enclosure, any shape of stand-alone structure or disguised in a suspended ceiling.

Different showerheads, jets and coloured lights are fitted into the shower canopy. These are connected to preset programs and are activated by low voltage electrical request buttons. You can choose from several showering programs. Usually each experience shower has two or three hot or cold programs from the following:

Cool Fresh Rain
Side Body Massage
Caribbean Rain

Polar Rain
Atlantic Ocean Shower
Scottish Rain

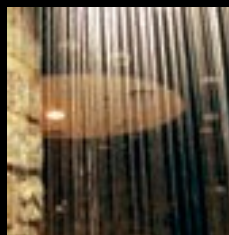

Tropical Storm
Tropic Rain
Hot & Cold alternating Splash

Cold Spray Mist
Summer Storm

We can also fit cold drench showers for the ultimate cold water experience.

Each program runs for a set adjustable time and usually produces essence, light and water to stimulate the senses. Some programs even come complete with sound effects.

The Experience Showers come as pre-fabricated units including walls and ceiling canopies. We can also supply the shower base if necessary. We simply require the supply of mechanical, electrical and plumbing services to agreed hand-over points. We build the enclosure, fix the canopy, connect the unit to all the services, and commission the unit. The showers are erected and finished tiled on site by our highly experienced installers.

Our design and build experience shower service offers complete peace of mind. We can also manufacture shower walks/corridors, shower walls with various features and kneipp walks. A kneipp walk is a low level foot experience either with side jets or small basins set into a vitalising corridor. The alternating baths of cold and warm water stimulate circulation and metabolism and even soothe the pain. Using pebble stones in the walk helps to massage your feet and complete this unique health experience.
